

Digital Marketing Guidelines

Guidelines for sending marketing and coverage emails, organizing client events, using cookies and obtaining speaker consents.

MSCI Marketing Team

February 2026

1. Purpose

These Guidelines describe the rules for (i) sending Marketing Emails to clients and prospects, (ii) organizing MSCI Events, (iii) using Cookies and (iv) obtaining speaker consents to use their photos / videos. These Guidelines are designed to help MSCI meet its obligations under applicable Privacy Laws.

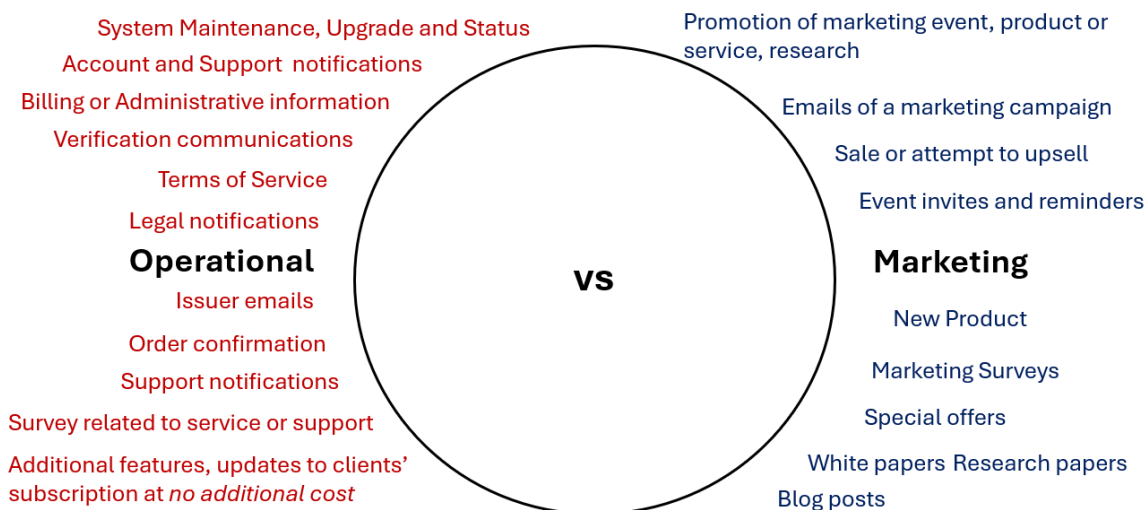

These Guidelines apply to MSCI globally.

These Guidelines supersede all previously issued guidance on the subject.

For postal/printed marketing, the Marketing team should be aware of and follow local rules in each jurisdiction and in case of doubt, reach out to the Privacy Office.

2. Definitions

- a. **"Privacy Law"** means any national, federal, state or local law, rule or regulation pertaining to the collection, use and disclosure of personal information, including but not limited to GDPR, UK GDPR, CCPA and anti-spam laws (including but not limited to CASL and CAN-SPAM). For purposes of these Guidelines, this includes all the laws of countries in which MSCI operates.
- b. **"Marketing (Commercial) Email"** means any email sent as part of an approved marketing campaign, as opposed to an individual communication, whose primary purpose is the marketing or promotion of any MSCI event, product or research. Marketing Emails include, without limitation, communications about new products, events, white papers, research papers and blog posts. Operational (Transactional) Emails, defined below, are not considered Marketing Emails.
- c. **"Operational (Transactional) Email"** means any email sent by MSCI to an existing MSCI client about (i) the products or services licensed by the client, (ii) billing or administrative matters, (iii) maintenance or system upgrade notices, (iv) satisfaction surveys related to a service or support, or (iv) any other matter pertinent to its ongoing relationship. ***Operational Emails should not be used for marketing purposes, i.e., the promotion of any MSCI product or service, or an attempt to upsell.*** Operational Emails include, without limitation: Barra NewsAlerts, RiskManager support notifications, MSCI index client notifications, and issuer verification communications sent by ESG. As an example, only an email notifying RiskManager clients about scheduled maintenance, upcoming product updates, or the addition of new features to the clients' subscription *at no additional cost*, is an Operational Email. Operational Emails may be sent by the appropriate Product or TCS team, Finance or other appropriate departments aside from Marketing.

- d. **"Opt-in"** means an affirmative choice by an individual permitting MSCI to send Marketing Emails. A "pre-checked" box to receive Marketing Emails is not a valid opt-in, nor would disabling an action/button until the check box is selected, for example a "register for event" button is disabled until the opt-in box is checked.
- e. **"Opt-out" (or "Unsubscribe")** means an instruction by an individual who receives Marketing Emails telling to MSCI stop sending those emails.
- f. **"Event"** means any MSCI Event or Industry Event.
- g. **"MSCI Event"** means any **"Hosted Event"** or **"Webinar"**.
 - **"Hosted Event"** is any live event hosted by MSCI, including in-office events, that clients or prospects are invited to attend for MSCI's marketing purposes.
 - **"Co-Hosted Events"** or **"Co-Branded Events"** are Hosted Events where we partner with another provider for a jointly beneficial experience.
 - **"Webinar"** is any online (e.g., Webex) presentation hosted by MSCI that clients or prospects are invited to attend for MSCI's marketing purposes.
 - **"Co-Hosted Webinars"** are Webinars where we partner with another provider for a jointly beneficial experience.
- h. **"Industry Event"** is any live event hosted by a third party at which MSCI is a sponsor, speaker or other type of participant. While registration for Industry Events is managed by a third party, promotion of Industry Events by MSCI personnel must be in accordance with these Guidelines.
- i. **"Cookies"** are the small text files that a website saves on a computer or mobile device when a person visits a website. Cookies are sent back to the originating website on each subsequent visit, or to another website that recognizes that cookie, in order to develop a

record of the user's online activity. Cookies may be delivered by the website, user visits or by third parties.

- j. **"Cookie Banner"**: MSCI's Cookie Banner is the approved notice by the Privacy Office that displayed on a user's first visit to a Web Presence that informs the user about the cookies and trackers the site use and enables the user to adjust the settings according to their preferences.
- k. **"Cookie Policy"**: This means the information on all cookies in use on MSCI's Web Presence with detailed information about each cookie made available for end-users to provide them with information on how their personal data is being processed when visiting MSCI's Web Presence.

3. Email marketing guidelines

In countries where opt-in is required, MSCI cannot send Marketing Emails to people unless and until they opt-in. In countries where unsolicited marketing emails may be sent on an optout basis, MSCI may – subject to compliance with these Guidelines – send Marketing Emails to individuals who have not opted-in, unless and until they opt-out.

MSCI operates an opt-in policy globally, except in the US where unsolicited Marketing Emails may be sent on an opt-out basis *solely in accordance with* these Guidelines.

Marketing has implemented Pardot, an email and automation marketing platform, to help facilitate this policy.¹ Proper use of Pardot by Marketing:

- Helps ensure the quality and consistency of Marketing Email to clients and prospects.
- Enables tracking of Marketing Emails to optimize deliverability, open rates, and lead scoring, which will enable MSCI to run nurturing campaigns in a personalized manner.
- Allows the Sales team to focus on meetings, calls and other prospecting activities.

3.1. Email marketing guidelines – Use of Pardot (Global)

- a. Only members of the Marketing Team (and designated operational teams approved by Marketing) are permitted to use Pardot.
- b. ***Except as expressly stated in paragraph e.ii.(B) below:***
 - i. The Marketing team will send Marketing Emails only to clients and prospects who "opt-in" to receive MSCI's Marketing Emails.
 - ii. Clients and prospects must opt-in themselves to receive Marketing Emails.

¹ Should MSCI implement a different email marketing platform, these Guidelines will be updated accordingly.

- Any MSCI personnel (including in Marketing, Sales or Client Support) who receives a request from a client or prospect asking to be added to MSCI's email marketing list should respond by sending the email [Subscribe](#) link with instructions to opt-in. *Forwarded written approval from the client or prospect is not sufficient for email enrollment, and Marketing will not proceed with these requests.*
- c. Email opt-in can be accomplished through the following two mechanisms:
 - i. The email [Subscribe](#) link (located on www.msci.com) (see paragraph d) below).
 - ii. Marketing's automated "onboarding" process (see paragraph e) below).
- d. Email [Subscribe](#) link: All new email subscribers, globally, who opt-in using the [Subscribe](#) link are required, on the subscription form, to acknowledge MSCI's Privacy Notice, which is implemented through a required tick box ("[]") and double opt-in process.
 - Double opt-in means the subscriber is sent a confirmation email with either a hyperlink or "Accept" (or similar) button that must be clicked in order to complete the enrollment. ***Individuals who do not confirm their subscription via the double opt-in mechanism will not be added to our email marketing list and will be deleted from Pardot***
- e. Automated "onboarding"
 - i. **Globally outside of the US:** New contacts outside of the US will be **invited to opt-in** to receive our Marketing Emails via an automated process, as follows:
 - A. New clients and prospects **outside the US** who fill out "lead generation" forms (e.g., Contact Us, event registration, document download) are added into Salesforce as "leads". Once someone from Coverage converts the individual to a "contact", an automated onboarding process checks Pardot for any existing email subscriptions for that individual.
 - B. ***Any person outside the US who is not yet on our email marketing list (and who has not otherwise "unsubscribed") will receive an automated email from Pardot that includes a link to our email [Subscribe](#) page. In order to be added to our email list, the individual must click the [Subscribe](#) link and fill out the form on the "MSCI Email Subscriptions" page described in paragraph 3.1.d. above. Individuals who do not affirmatively opt-in and complete the double opt-in process will not be added to our email marketing lists.***
 - ii. **US Only:** New contacts in the US will be **automatically added to our Marketing Email lists** via an automated process, as follows:
 - A. New clients and prospects in the US who fill out "lead generation" forms (e.g., Contact Us, event registration, document download) are added into Salesforce as "leads". Once someone from Coverage converts the individual to a "contact" the automated onboarding process checks Pardot for any existing email subscriptions for that individual.

- B. ***Any US-based person who is not yet on our email marketing list (and who has not otherwise “unsubscribed”) will receive an automated email from Pardot notifying them that they have been added to our marketing list.***
- f. All Marketing Emails, including automated onboarding invitations (outside of the US) and notifications about being added to our email list (inside the US), must include “unsubscribe” and “change preferences” links. They must also include MSCI’s physical mailing address: 7 World Trade Center, 250 Greenwich Street, New York NY 10007, United States.
- g. Only a reasonable number of Marketing Emails may be sent to any recipient over a given period of time, which will be determined by the Marketing team - **no recipient may receive two or more Marketing Emails on the same day.”**
- h. **Dual Purpose Emails (Marketing vs. Operational): *Operational Emails must not include marketing content, i.e., the promotion of any MSCI product or service, or an attempt to upsell.*** For example, if an email notifies current clients about new features that will or can be added to their current subscription at no additional cost, then the email is considered Operational and recipients should be directed to contact Client Support (and not Coverage) with any questions. If, on the other hand, an email notifies current clients about new features that can be added to their current subscription for an additional fee, then the email is considered Marketing and recipients may be directed to contact either Client Support or Coverage with any questions.
- i. **Dual Purpose Emails (Email Preferences):** MSCI may send Marketing Emails only in accordance with a subscriber’s email preferences (i.e., Product, Research and/or Events). Dual purpose emails (e.g., promoting Research and Events) should only be sent to recipients whose email preferences match both topics. In such cases, the primary purpose of the email controls. ***The Marketing team will determine the primary purpose of the email, with assistance from Legal or the Privacy Office, as needed.*** By way of example only:
 - i. if an email is exclusively about a Product then, it can be sent only to Product subscribers;
 - ii. if an email is primarily about a Product and secondarily about Research, then it should only be sent to Product subscribers except where a dual audience is approved by senior Marketing leadership (with advice from the Privacy Office or Legal, as needed);
 - iii. if an email is exclusively about Research, it can be sent only to Research subscribers;
 - iv. if an email is primarily about Research and secondarily about a Product, it should only be sent to Research subscribers except where a dual audience is approved by senior Marketing leadership (with advice from the Privacy Office or Legal, as needed); and
 - v. if an email is equally weighted between a Product and Research it can be sent only to individuals who are both Product and Research subscribers.

- All audience overlap checks need to be performed in Pardot by the Marketing team on a case-by-case basis.
- The approvals referred to in paragraphs 3.1.i) ii. and 3.1.i) iv. above should be made either by (a) the Head of Product Marketing, (b) the Head of Client Segment Marketing, or (c) the Head of Sales Enablement, as appropriate under the circumstances.

Third party prospect lists: MSCI may obtain limited business contact information—such as name, corporate email address, company name, job title, and other role-relevant professional details—from licensed data brokers and publicly available sources. This data may be used solely to support lawful business-to-business prospecting and outreach activities with the following conditions:

- i. A Data Privacy Risk Assessment (DPRA) must be completed for each data broker prior to onboarding;
- ii. Data Broker engagement should go via GSS, and Contract / Data Sharing terms should be in place with the data broker, and the privacy roles / obligations defined;
- iii. All externally sourced contact details are properly tagged within our CRM to maintain full traceability and verifiability of data origins;
- iv. Separate email template with appropriate notices need to be provided for cold outreach campaigns;
- v. All communications must include a clear opt-out option, and any opt-out requests must be managed transparently and without undue delay by the responsible teams. The Marketing and Coverage teams are expected to remain vigilant regarding these obligations and to respond promptly to any data subject rights requests, engaging the Privacy Office where appropriate;
- j. All potential recipients of each Marketing Email / Sales campaign, including those sourced from a Data Broker, must be checked against MSCI's "opt-out" and "unconfirmed subscribers" lists.
- k. Opt-out lists must always be kept up to date, ensuring that former clients do not receive any operational or marketing emails. Client Services needs to raise a request to remove access to clients who left the service.

3.2. Email marketing guidelines: Sending emails via outlook – requirements for coverage (Global)

- a. Coverage may use Outlook for **direct communications** with clients and prospects in the ordinary course of business.

- b. **Except as expressly stated in paragraph (c) immediately below**, Coverage may **not** use Outlook to forward Marketing Emails (including events promotions and registration forms), or to otherwise send out any Marketing Emails, to clients or prospects.
 - ***MSCI personnel are not permitted to use the blind-copy (bcc) functionality in Outlook to promote MSCI events, research or products to clients or prospects.***
- c. As an exception to the prohibition stated in paragraph b. immediately above, Coverage **may** use Outlook to forward Marketing Emails (including events promotions and registration forms) and other Marketing Emails, **on a case-by-case basis, to individual clients and prospects, each specified in the "To" or "cc" line, with whom the sender has an established relationship or with whom the sender is actively building a relationship.** Coverage personnel should exercise sound judgment in these circumstances.
- d. Client facing teams may use email footers in Outlook emails as part of their signature in use in order to encourage marketing email sign ups. These footers should be brief and transparent to comply with privacy requirements and laws. Such footers should always include a link to the [Privacy Notice](#). In such cases the footers should always include the [sign-up](#) link as well and an opt-out option from further correspondence.

An example for such a footer: "You are receiving this message as part of our professional outreach. If you do not wish to receive further correspondence, please inform the sender, and your contact details will be removed from our outreach list. For more investment insights from MSCI [sign up to our emails](#) | [Privacy Notice](#) "

3.3. Email marketing guidelines: Request and approval processes

- a. All Marketing Email campaigns must be approved by any of the following (or their delegates) based on the content and audience of the campaign: (i) Head of Product Marketing, (ii) Head of Client Segment Marketing, (iii) Head of Sales Enablement, (iv) Head of Brand, Digital & OneMSCI or (v) Head of Corporate Communications.
- b. Requests for Mass Email Marketing campaigns should be sent to the following mailgroups, as appropriate:
 - i. msci_marketing_analytics
 - ii. msci_marketing_index
 - iii. msci_marketing_esg
 - iv. msci_marketing_real_estate
 - v. msci_marketing_factor
 - vi. msci_marketing_wealth_management
- c. General questions regarding email subscriptions should be directed to the Email Marketing team at email_marketing@msci.com.
- d. Coverage should provide an outline of the content and the target audience in a timely manner.

- e. Marketing will work with Coverage and the relevant Commercial Product Manager to refine the messaging and target list, utilize the best lead generation techniques, ensure proper Legal review (if needed), and finalize distribution and tracking.
- f. Where appropriate, Marketing will obtain advice and approval from Legal and/or the Privacy Office, before sending Marketing Emails.

3.3. Email marketing guidelines: Request and approval processes

- g. All Marketing Email campaigns must be approved by any of the following (or their delegates) based on the content and audience of the campaign: (i) Head of Product Marketing, (ii) Head of Client Segment Marketing, (iii) Head of Sales Enablement, (iv) Head of Brand, Digital & OneMSCI or (v) Head of Corporate Communications.
- h. Requests for Mass Email Marketing campaigns should be sent to the following mailgroups, as appropriate:
 - i. msci_marketing_analytics
 - ii. msci_marketing_index
 - iii. msci_marketing_esg
 - iv. msci_marketing_real_estate
 - v. msci_marketing_factor
 - vi. msci_marketing_wealth_management
- i. General questions regarding email subscriptions should be directed to the Email Marketing team at email_marketing@msci.com.
- j. Process:
 - i. Stakeholder creates a request using the current task manager (AirTable) at least 5 days before the Due Date providing all required information:
 - Campaign name
 - Product line
 - Email type
 - Objective
 - Subject
 - Preheader
 - Content: Word document uploaded or linked in the request. It must be ready to use, validated and approved by marketing and legal.
 - Audience: existing or new contacts (view 3.4)
 - Send Date (must be 2-3 days after the Due date)
 - ii. **Email team** will review and change the task status to *In Progress*.
 - iii. **Email team** will build the assets and send proofs through **Litmus** to the stakeholders to review on the Due Date or before.

- iv. **Stakeholder** will review and comment if there is any adjustment or change (up to 5 changes).
- v. Once the email is ready the **stakeholder** will approve the email(s) in **Litmus** and in the AirTable task. At this stage the content is frozen and cannot be modified.
- vi. **Email team** makes a last functional testing in Pardot with a reduced stakeholders sign off.
- vii. **Email team** sends or schedules the email campaign, and marks the task as *Completed*.
- k. Marketing will work with Coverage and the relevant Commercial Product Manager to refine the messaging and target list, utilize the best lead generation techniques, ensure proper Legal review (if needed), and finalize distribution and tracking.
- l. Where appropriate, Marketing will obtain advice and approval from Legal and/or the Privacy Office, before sending Marketing Emails.

3.4. Email marketing guidelines: New Contacts Upload

Any contact list provided to or acquired by MSCI from a third party for cold outreach (e.g., webinar invitations, event promotions, or similar marketing activities) must be reviewed and owned by the Marketing and Events teams.

Before using any such list, the Marketing and Events teams must conduct appropriate due diligence to ensure that the third party:

- has provided the required privacy notices to individuals, and
- has obtained valid consent or has a lawful basis to share the data with MSCI.

This due diligence includes reviewing and validating the third party's privacy notices, terms and conditions, and any related documentation. The Privacy Office must be engaged as needed, and supporting documents must be shared with them to confirm that the data is lawfully provided to MSCI before any outreach activity takes place.

New contacts can be uploaded to Pardot lists and they can be used for email marketing and campaigns considering the following:

- a. **Requestor** will use the standard **Contact Upload Template** (TBD) filling the minimum required fields:
 - a. Email address
 - b. First name
 - c. Last name
 - d. Company
 - e. Business Phone
 - f. Country
 - g. State (required for US)

- h. Opt-in (see 3.5)
 - i. List Source (see Appendix 1)
 - j. List Source Detail
- b. **Requester** will create an Upload New Contacts request and will add the Contact Upload Template in it.
- c. **Email team** will create a list with the new contacts and will provide the name to the requestor.
- d. The list now will be ready to be used in a campaign or for marketing purposes (only if the contacts have Express opt-in).

3.5. Email marketing guidelines: Contacts Opt-in

All contacts must have Opt-in field defined:

1. **Express:** The user decided to subscribe voluntarily through a web/app form, physical form or verbally (documented).
2. **Opt-out:** The user decided to stop receiving emails through an email unsubscribe link or preference center or through verbal request. This users can receive transactional emails from a campaign or event if they register to it.
3. **Pending:** If there is no opt-in information when uploading a new contact, this only can be used for transactional emails in one campaign.
These users could be invited to Opt-in in a one time "Subscribe invitation" email (Note that the effectiveness rate of this campaigns is under 1%).

Contacts with Opted out and pending status could be **deleted** after 6m – 1y of inactivity.

4. Event guidelines

4.1. Event guidelines: Organizing MSCI events

- a. The MSCI Global Events Team is the only group permitted to organize MSCI Events. The MSCI Global Events Team will use only firm-approved tools to manage and track MSCI Events, which as of the date of these Guidelines include Certain Event Management (Certain) and WebEx.²
- b. All MSCI Events must be approved by any of the following (or their delegates) to ensure the Event is relevant and its budget is appropriate: (i) Head of Product Marketing, (ii) Head of Client Segment Marketing, (iii) Head of Sales Enablement, (iv) Head of Brand, Digital & OneMSCI or (v) Head of Corporate Communications.

² Should MSCI implement different events platforms, these Guidelines will be updated accordingly.

c. Requests to hold MSCI Events should be sent to the following mail groups, as appropriate:

- msci_marketing_analytics
- msci_marketing_index
- msci_marketing_esg

-
- msci_marketing_real_estate
 - msci_marketing_factor
 - msci_marketing_wealth_management

d. General questions regarding events should be directed to the MSCI Events Marketing team at event_inquiry@msci.com.

4.2. Event guidelines: Relationship to email marketing

- a. Event registration does **not** qualify as or substitute for email marketing opt-in.
- b. Individuals who register for MSCI Events will be processed through the Marketing team's automated onboarding technology to determine whether and how to add that individual to our email marketing list.

4.3. Event guidelines: Promoting MSCI events

- a. **Outlook**: Use of Outlook to promote MSCI Events must be in accordance with the Email Marketing Guidelines provided above.
- b. **Pardot**: Use of Pardot (mass mailing platform) to promote MSCI Events must be in accordance with the Email Marketing Guidelines provided above.
- c. **Social Media**: Use of social media to promote MSCI Events must be in accordance with MSCI's social media policy, which is contained in the Code of Conduct, Firm Systems and Acceptable Use Policy, and the ESG Code of Ethics.

4.4. Event guidelines: Online registration

- a. Except as expressly stated in Section 4.5. below (Co-Hosted / Co-Branded Events) and Section 4.7. below (Registration by facsimile (Japan only)), the rules stated in this Section 4.4 apply to all registrations for MSCI Events.
- b. Clients and prospects must register themselves online for MSCI Events. MSCI personnel cannot do this for them.
 - i All MSCI Event registrations must take place using MSCI's online registration form, which is located on MSCI's website at www.msci.com/events.
 - ii Any MSCI personnel (including in Marketing, Sales or Client Support) who receives a request from a client or prospect asking to be registered for any MSCI Event should respond by sending a hyperlink (or directing the client or prospect to navigate to) to the Event's online registration form, which is located on MSCI's website at www.msci.com/events. *Forwarded*

written approval from the client or prospect is not sufficient for Event registration, and Marketing will not proceed with these requests.

- c. All MSCI Events registrants are required to acknowledge MSCI's Privacy Notice in order to submit their registration, which is implemented through a mandatory tick box ("[]") on the registration form.

4.5. Event guidelines: Co-hosted events / Co-branded events

- a. **Co-Hosted Events / Co-Branded Events:** Registration may follow 3 possible paths:

- i. MSCI Registration: MSCI owns the registration process. Both parties send invitations to their contact lists. All invitees come to MSCI's registration page.

➤ *This is MSCI's preferred approach. Individuals not previously known to us are entered into Salesforce as new leads. In the subsequent scenarios, individuals who register with the co-host will not be automatically entered as leads in Salesforce but will become leads on the co-host's end.*

- ii. Separate Registration: Each party owns its portion of the registration process. Both parties send invitations to their contact lists. Each party's invitees come to its registration page.

- iii. Co-Host Registration: The event co-host owns the registration process. Both parties send invitations to their contact lists. All invitees come to the co-host's registration page.

- b. **Co-Hosted Webinars:** Registration is via a unique URL generated by the webinar platform. As a result:

- i. Only one firm (i.e., MSCI or the co-host) can own the registration process.
- ii. The party *not* hosting the webinar sends invitations to its *own contact list* and directs its contacts to register on the *co-host's registration page*.
- iii. Only the party hosting the event can track attendance and use the attendance list for lead generation.

- d. **List Sharing:**

- i. Because MSCI's client list is MSCI's confidential and proprietary information and for privacy reasons, MSCI may not share its client and prospect lists with third parties, including MSCI's business partners for Co-Hosted Events, **except** as provided in these Guidelines.
- ii. List sharing is permitted (without Legal approval) for purposes such as:
 - 1. facilitating Event registration, for example to avoid duplicative emails going to the same invitee;

2. facilitating the Event itself, such as creating a consolidated registration list (e.g., shared Excel file), mailing out materials, printing seating charts and name badges, marking attendance, ordering special meals or making special accommodations;
 3. Facilitating Event follow up, such as sending out Event materials, surveys / feedback requests, invitations to subscribe to mailing lists, and other similar activities; or
 4. Our agreement with the co-host requires registrant / attendee reporting.
- iii. Any list sharing other than as described above requires prior approval by Legal and the Privacy Office.
- iv. Sponsorship of a third-party event, whereby the attendee or delegate list is provided to MSCI as part of the sponsorship benefits, requires Marketing team's ownership and the due diligence of the third party providing the list to ensure that the third party is providing the appropriate notices, obtaining the required authority including valid consent or has a lawful basis to share the lists with MSCI for all regions and jurisdictions. This includes validating the event's registration page, notices, and terms and conditions, and engaging the Privacy Office as needed by sharing supporting documentation to confirm that data is lawfully shared with MSCI.
- v. Marketing Event Agreement shall be used with the co-host company: [Privacy Awareness - Home \(sharepoint.com\)](#)

4.6. Event guidelines: Onsite / In-person registration

- a. Onsite registration of walk-ins is strongly encouraged. MSCI may deny entry to any walk-in who does not complete the on-site registration form.
- b. The on-site registration form used must be on a form approved by the Privacy Office and Legal, to ensure we are capturing all appropriate information. No other forms may be used. *See Appendix 2 for the approved template.*
- c. After the MSCI Event, Marketing should enter walk-in registrant information into Certain for tracking and reporting purposes. This information, together with the information of attendees who registered online, automatically syncs into Salesforce.
 - *Walk-ins who do not complete the registration form cannot be added to Certain for tracking and reporting purposes, and therefore cannot be added to Salesforce or Pardot for email marketing enrollment.*

4.7. Event guidelines: Registration by facsimile (Japan only)

- a. The use of facsimile to promote and register individuals for MSCI Events in Japan is permitted, provided that communications sent by facsimile may be addressed /

transmitted only to the entity's general fax number (i.e., the main fax number of the entity not associated with specific individuals). *Under this scenario, we do not need consent.*

- b. If communications by facsimile are required to go to specific individuals, then Marketing must first check with the Privacy Office or Legal for guidance.

4.8. Event guidelines: Follow-up communications

- a. Following each MSCI Event, the Marketing team may send communications (via email, social media, print or otherwise) to each registrant that serves as a follow up (e.g., thank you for attending / we're sorry you couldn't attend, please give us your feedback, etc.).
- b. Follow up emails may also include an invitation to subscribe to MSCI's Marketing Emails, as follows (or substantially similar):

"If you would like to receive emails from MSCI about our Products, Research or Events, please click this '[Subscribe](#)' link and fill out our enrollment form."

4.9. Event guidelines: External speaker / Presenter consent

- a. MSCI must obtain **prior written consent** from external speakers / presenters before using their **name, photograph and video/voice recording on MSCI's internal and external websites, mobile apps, social media accounts, podcasts, or printed materials regarding the MSCI Event.**
 - Prior consent is not required to reproduce the names and relevant contact information of MSCI Event speakers and other attendees in brochures or other similar materials intended for distribution to MSCI Event participants.
 - The Events Team must keep a record of the consents obtained and file them on the shared drive Marketing/Global Events Drive.
- b. Marketing should use the template Publicity Consent attached to these Guidelines as *Appendix 3*. Marketing must keep a copy as a record of consent.
- c. Marketing must consult with Legal if the speaker asks for any changes, or objects to the Publicity Consent, in any way.

4.10. Event guidelines: Deletion

- a. All MSCI Event registration data must be deleted from Certain, Webex or any other firm-approved MSCI Event registration platform in accordance with MSCI's record retention policy and schedule.
- b. All sensitive personal data that individuals may include on an Event registration form (e.g., in the "Special Requests for Dietary Requirements" field) must be deleted from Certain or

any other firm-approved MSCI Event registration platform within sixty (60) days following the completion of the MSCI Event.

- c. Marketing is responsible for demonstrating compliance with this deletion requirement, including to Legal, the Privacy Office and/or Internal Audit.

5. Use of Employee Photographs in the Workplace

5.1 Usage of photos/videos on different platforms

- a. Where photos or video are to be included in public facing websites, social media or other widely distributed marketing collateral, a formal consent form is required from the individuals. Event Management Team is responsible for consent collection and management.
- b. Where the photo or video is to be used in a less public or permanent way, for example, in an internal newsletter or on MyMSCI, employees need to be informed in advance that photographs will be taken at the event and may be used for a particular purpose. Employees need to have the option to opt-out from usage of their data by informing the organizers or the photographer. If they do not explicitly express their preference to the event organizer or photographer, and they allow their photograph to be taken, then consent to that taking and use of the image may be implied.

6. Cookie Guidelines

MSCI Inc. and its affiliates (together, "MSCI") uses cookies on its public facing website (<https://www.msci.com>) and its sub domains which are referred to as the "website" and together the "websites". Consent preferences are managed in the One Trust Privacy Preference Center. Consent received from website visitors is documented and stored in the One Trust tool.

6.1 Requirements for using cookies

- a. Before creating a new domain or a sub domain, the Sub-domain owners / Application Teams shall notify the Privacy Office and Business Technology and initiate the process for Cookie Deployment as set out in the Cookie Governance Policy.
- b. Cookies must be verified and classified in all cases in the Cookie Compliance module of OneTrust. Before launching new cookies on any MSCI Web Presence, consultation with Business Technology and the Privacy Office is required.
- c. Data tracked by each cookie and the purpose of cookies has to be clearly explained in plain language. MSCI's Privacy Preference Center informs the user about the cookies and trackers the site uses and enables the users to adjust the settings according to their preferences. In case of any change regarding cookies, the notice must be updated accordingly.
- d. In **EEA region**, it is mandatory to obtain users' consent before using any cookies (**opt-in**), except strictly necessary ones. Strictly necessary cookies are necessary for the website to function and cannot be switched off. On the cookie banner users have the option to Reject all cookies (except necessary ones) Accept all cookies or manage their preferences in the Cookie Settings. Users can withdraw their consent any time in the Privacy Preference Center.
- e. **Outside the EEA** region it's not mandatory for users to interact with the cookie banner but they also have the option to **opt-out** of non-essential cookies in the Privacy Preference Center any time.

[End Guidelines]

[Appendices Follows]

Appendix 1

The following mandatory processes are applicable to every Marketing Email sent from Pardot.

Suppression lists

- a. With the double opt-in process, the suppression list which must be used for all outgoing Marketing Emails, without exceptions, is:

[Marketing - Unconfirmed Opt-ins - DO NOT EMAIL](#)

This list filters out all contacts that have not yet completed the double opt-in process for Marketing Email subscriptions. It is essential to exclude them from all marketing communication. (This list is populated real time, so once the double opt-in is completed, contacts will be automatically removed.)

- b. In order to respect the Marketing Email preferences of our contacts, only those subscriber lists (e.g. Research, Product, Event) should be used that reflect the content of a particular email campaign. The relevant suppression list from the below must be used in order to remove all contacts whose preferences do not match the email content type at the time of distribution.
 - i. Event: [GDPR - All Prospects - Pardot List not event - SUPPRESSION](#)
 - ii. Product: [GDPR - All Prospects - Pardot List not product - SUPPRESSION](#)
 - iii. Research: [GDPR - All Prospects - Pardot List not research - SUPPRESSION](#)
- c. The relevant competitor suppression lists must be used depending on the product line of the email:
 - i. Index: [Marketing - Index - suppression list](#)
 - ii. Analytics: [Marketing - Analytics - suppression list](#)
 - iii. ESG: [Marketing - ESG - suppression list](#)
 - iv. Real Estate: [Marketing - Real Estate - suppression list](#)
 - v. OneMSCI: [Marketing - OneMSCI - suppression list](#)

List source

The source of all ad-hoc lists (i.e. lists that are manually imported into Salesforce or Pardot for marketing purposes) must be verified. In order to regulate this, all static lists* uploaded to Pardot must include a column for 'List Source'.

Steps to follow in order to provide the list source during Pardot import:

- a. In the excel (or csv) file, add a new column with the header 'List Source' after Email Address (and First Name, Last Name if applicable)

Examples: If from an MSCI platform such as Salesforce – add 'exported from Salesforce: <https://msci.my.salesforce.com/.....>' in this column (i.e. add the actual SF report link); or if provided by a specific Coverage person or group from their own contacts – use 'provided by UK Index coverage'.

	A	B	C	D	E	F	G	H	I	J
1	First Name	Last Name	Email	List Source						
2	Elisabeth	Bourqui	elisabeth.bourqui@ch.abb.com	From SF export https://msci.my.salesforce.com/00O70000003meGw						
3	Ron	Steijn	ron.steijn@ch.abb.com	From SF export https://msci.my.salesforce.com/00O70000003meGw						
4	Peter	Haueter	peter.haueter@alte-leipziger.de	From SF export https://msci.my.salesforce.com/00O70000003meGw						
5	Adrian	Ryser	adrian.ryser@ast-mpk.ch	From SF export https://msci.my.salesforce.com/00O70000003meGw						
6	Andrea	Rädler	andrea.raedler@mpk.ch	From SF export https://msci.my.salesforce.com/00O70000003meGw						
7	Wolfram	Roddewig	Wolfram.Roddewig@aonhewitt.com	From SF export https://msci.my.salesforce.com/00O70000003meGw						
8	Dominique	Grandchamp	dominique.grandchamp@aonhewitt.com	From SF export https://msci.my.salesforce.com/00O70000003meGw						
9	Pierre	Cardon	Pierre.Cardon@bis.org	From SF export https://msci.my.salesforce.com/00O70000003meGw						
10	Leslie	Kapin	Leslie.Kapin@bis.org	From SF export https://msci.my.salesforce.com/00O70000003meGw						
11	Otto	Hoerner	otto.hoerner@basf.com	From SF export https://msci.my.salesforce.com/00O70000003meGw						
12	Daniel	Just	djust@versorgungskammer.de	From SF export https://msci.my.salesforce.com/00O70000003meGw						

- b. Copy and paste this for every row, so each contact has the same list source.
- c. During list upload, select the List Source field to be mapped across.

Header Row	First Row	Field	Overwrite select all
First Name	Elisabeth	First Name	☐ overwrite existing data
Last Name	Bourqui	Last Name	☐ overwrite existing data
Email	elisabeth.bourqui@ch.abb.com	Email	☐ overwrite existing data
List Source	From SF export https://msci.my.salesforce.com/00O70000003meGw	List source	☐ overwrite existing data

**Does not apply to the suppression lists uploaded in order to filter out already registered contacts from event invitations. Using the List Source field is not a requirement for these lists.*

Compliance with these processes is crucial to making sure we do not violate Privacy Laws. All outgoing Marketing Emails and ad-hoc lists are monitored by the Email Marketing team and monthly reports are created to address any non-compliance cases promptly.

APPENDIX 4

Guidance on Handling Data Subject Requests (DSRs)

1. Purpose

This guidance outlines how Marketing teams must handle Data Subject Requests (DSRs) in compliance with applicable data protection regulations (e.g., GDPR, CCPA and other local privacy laws). Timely and accurate handling of DSRs is mandatory and subject to strict regulatory deadlines.

2. What is Personal Information?

Marketing teams process various types of personal information. Personal information includes any data that identifies or can reasonably identify an individual.

In the marketing environment, this may include:

- Business Contact Information: Name, Email address, Phone number, Job title, Company name, Business address and Professional information like Industry, Role/function;
- Digital & Online Identifiers: IP address, Cookie identifiers, Device IDs, Marketing automation identifiers, CRM IDs (e.g., Salesforce ID);
- Engagement & Behavioral Data: Email open/click data, Event registrations and attendance, Website activity, Campaign responses, Subscription preferences.

3. Types of Data Subject Requests

DSRs may differ in nature and each type of request may require different actions in marketing systems.

. Marketing teams should be aware that requests may include:

- Access requests (What personal data do you hold about me?);
- Correction/Rectification requests (Correct inaccurate information);
- Deletion/Erasure requests (“Right to be forgotten”);
- Opt-out / unsubscribe related requests.

4. Regulatory Deadlines – Prompt Action Required

Data protection laws impose strict timelines for responding to DSRs (e.g., typically within one month under GDPR). Failure to act within required deadlines may expose the company to regulatory penalties, reputational damage, legal risk. **Marketing teams must treat DSR notifications as high priority and act without delay.**

5. Process Upon Notification from the Data Privacy Office

When the Data Privacy Office (DPO) notifies Marketing of a DSR:

Step 1: Acknowledge and Assign

- Confirm receipt internally.
- Assign responsible team member(s).

Step 2: Identify Relevant Systems

Determine where the individual's data exists, including but not limited to:

- Salesforce (CRM)
- Pardot / Marketing Automation platforms
- Issuer Database
- Email marketing systems
- Event management tools
- Webinar platforms
- Local marketing databases
- Shared drives or campaign lists

Step 3: Execute Required Action

Depending on the type of DSR:

For **Deletion** Requests:

- Delete or mask the personal data, where permitted and required.
- Ensure deletion or masking across integrated systems where applicable.
- Confirm removal from active marketing lists.

For **Correction** Requests:

- Update inaccurate information in all relevant systems.
- Ensure consistency across Salesforce, Pardot, and connected tools.

For **Objection/Opt-out** Requests:

- Suppress from marketing communications.
- Ensure contact is removed from all future campaign audiences.

6. Masking Requirement for Email & Phone Numbers

When required (especially in deletion or objection scenarios), marketing systems must be updated appropriately. Tagging and masking ensures the record is not reused in campaigns and the contact cannot be accidentally reactivated.

Email addresses and phone numbers must be

- "DO NOT USE" tagged;
- masked by replacing the first characters with "xxxx".

Example:

- john.doe@email.com → XXXX.doe@email.com
- +44 0123 456 789 → +44 XXXX 456 789

7. Coordination with the Data Privacy Office

Marketing teams must:

- Follow instructions provided by the Data Privacy Office.
- Confirm completion of required actions.
- Escalate any system limitations or technical issues immediately.
- Avoid responding directly to the data subject unless instructed.

All external communications must be coordinated through the Data Privacy Office.

**Version History**

Date	Vers.	Change details
26-Feb-2026	3.4	Guidance on Data Subject Requests has been added as Annex 4.
12-Dec-2025	3.3	Conditions for data broker usage and Pardot data uploads have been added, and links updated.
25-April-2024	3.2	Reference to marketing agreement and photo usage at the workplace and Cookie guidance section added. Consent form updated.
29-Jun-2020	3.1	Updated document branding and refined wording in previous version.
21-Nov-2019	3.0	Updates to guidelines covering the use of third parties and the use of data brokers to obtain marketing lists, and marketing lists obtained through sponsored events. Added details on the scope of CCPA.
24-Jan-2019	2.0	Update to 25-May2018 version. Clarifies use of Outlook; combines US/ex-US email marketing sections; adds new sections on Events, photo consent and list sharing.
25-May-2018	1.0	Update to May 2016. Adds email / events double-opt in; prohibits MSCI from registering clients / prospects for emails or events – individuals must do this themselves.
